

Linear LED Profile
Manufactured in Australia

Casa is an original linear concept designed and manufactured in Australia that can be utilised for a multiplicity of lighting tasks both for indoor and outdoor linear LED applications. Constructed from high grade and high impact polycarbonate and aluminium materials Casa can be surface mounted or recessed into interior and exterior soffits, walls and floors. The reinforced lens cartridge allows for trafficable floor applications as well as any vandal proof situations. Available in multiple colour temperatures and new tech tuneable white adjustable colour temperature. Casa can be made to individual module lengths or fabricated to custom lengths with continuous lighting effect.

- Recess Profile**
- Suitable for recess mounting
 - Suitable for foot traffic
 - Slim depth of 25mm

- Wall Mount Profile**
- Two piece profile suitable for wall mounting

IP20 CE

Width	25mm
Height	25mm
Length	Custom
IP Rating	IP20

Mounting	(S) Surface Mount (P) Suspended
----------	------------------------------------

Output per meter	5W - 408 lm 10W - 820 lm 18W - 1470lm
------------------	---

Power supply	Remote
Voltage	24V

Beam Angle	120 Degree
CRI	90+
UGR	n/a
Step McAdam	<3
Lifetime	50,000 hours L80, B10

Colour Temperature	2700K 3000K 4000K RGB
--------------------	--------------------------------

Finish	Black White Brushed Brass
--------	---------------------------------

Dimming	(N) On/Off (D) DALI (C) CASAMBI
---------	---------------------------------------

Material	Aluminium
Diffuser	Opal
Warranty	5 Years
