

# MINIMAL THIN TW

## Linear LED Profile Manufactured in Australia

Minimal Thin is an original linear concept designed and manufactured in Australia that can be utilised for a multiplicity of lighting tasks for indoor linear LED applications. Constructed from high grade and high impact polycarbonate and aluminium materials, Minimal Thin can be surface mounted or recessed into interior cabinetry and joinery, or used in other beautiful architectural applications. Available in multiple colour temperatures and new tech tuneable white adjustable colour temperature. Minimal Thin can be made to individual module lengths or fabricated to custom lengths with continuous lighting effect. IP65 version available on request

IP20 CE

Width	16mm
Height	13mm
Length	Custom
IP Rating	IP20

Mounting	(S) Surface Mount (P) Suspended
----------	------------------------------------

Output per meter	5W - 408 lm 10W - 820 lm 18W - 1470lm
------------------	---

Power supply	Remote
Voltage	24V

Beam Angle	120 Degree
CRI	90+
UGR	n/a
Step McAdam	<3
Lifetime	50,000 hours L80, B10

Colour Temperature	2700K ~ 6000K
--------------------	---------------

Finish	Black White Anodised Silver
--------	-----------------------------------

Dimming	(N) On/Off (D) DALI (C) CASAMBI
---------	---------------------------------------

Material	Aluminium
Diffuser	Opal
Warranty	5 Years
